Used in Hospitals

"After losing the 'real' Gumdrops I picked up the First Years ones. Our son would NOT take a First Years GumDrop at all. Whether the differences are obvious to us or not, they're obvious to the baby that's for sure!" Jamie; Berkshire, NY

"The only pacifier my son will use. Thank you Hawaii Medical." Annie; Anita, IA

The First Years® GumDrops May Look The Same But They're Not!

Only the Hawaii Medical GumDrop Pacifier is used by hospitals & made in America. The nipple is textured, it's lighter weight and babies can tell the difference.

Compare GumDrop Brands

Hawaii Medical	The First Years
★ Made in USA	Made in China
★ Manufactured to keep germs and moisture out	Silicone layers may separate allowing moisture & germs to get trapped between layers
★ Textured nipple is easy to latch	Smooth and slippery nipple
★ The exact GumDrop used in hospitals	Sold only in retail stores. Not used in hospitals.
★ Lighter weight – easier to keep in baby's mouth	Nearly 10% heavier
★ Natural and vanilla scent	Only unscented

Lightweight

Nearly 10% lighter than First Years® & Soothie®

Great For Breastfeeding

Textured nipple - Easy to latch

Comfortable

Curved shape and low profile to fit baby's face

Safe
